*"Learning to Do, Doing to Learn,
Earning to Live, Living to Serve."
-FFA Motto*

Fellow Oregon FFA Members,

In life, we only get one chance at many things. We get one chance to make a good impression. We get one chance to make that game winning goal. We get one chance to make a difference in this world, and if you miss your one chance, it's gone. The moment is lost, but if we seize the moment, and give it everything we have, then anything is possible.

We have all experienced a moment where we have had one chance to accomplish something. I had one of these moments my Sophomore year, at the State Dairy Cattle Evaluation CDE. My team and I had worked incredibly hard to get ready for this CDE. We were nervous on the day of the competition. Wondering how well we would compete against the opposing chapters. This was our one chance to try and qualify for Nationals, because we were about to lose half of our team because they were graduating. We all went out there and competed to the limit. When it came to awards, we were all nervous for what was to come. We got called up for making top four advanced teams. Then came the results, 4th place, 3rd place, 2nd place, and we still had not heard our chapter's name. In that moment we realized that we had accomplished the impossible. We achieved 1st place in Dairy Cattle Evaluation and we couldn't believe it for a single moment. We would have the honor to represent Oregon at the National level. We had one chance and we gave it everything we had, and we came out on top.

If we have one chance at something, then why not put everything into that one chance? If we have one chance to make a difference in our world, shouldn't we take it and give it all we have? This is why I'm taking my one chance to run for this year's Oregon FFA State Officer Team and putting everything that I have into it.

Yours truly,

Austin Brill
