

Willamina FFA Chapter

1100 Oaken Hills Drive
Willamina, OR 97396

Greetings Oregon FFA Friends,

Looking back over these past few years in FFA it seemed to me that I was watching the funniest, most amazing movie ever. You know the one where the goofy kid comes around the corner, covered in mud from head to toe, because she tripped over her own two feet trying to out run a pig. Yes, that was me. Where everything was non-stop and had you sitting on the edge of your seat in laughter. That is much like what my life has been these past three years in FFA. I have learned through FFA to be passionate while debating parliamentary procedure, patient while showing livestock, as well as dedicated in Soils and AG Sales.

When I was a sophomore, I was convinced that I would have an AG class and be in FFA, no matter what it took; so that I would be able to experience the joys of FFA. I found that my biggest joy was at the Oregon State Convention. I saw the sea of blue and gold jackets that my head was sent spinning, and I realized that FFA was a small step to a bigger picture.

My final realization came when I saw the magnitude of our organization at the National FFA Convention. I was so moved as the officers gave their speeches. I was convinced after I left that someday in the future I would be a role model as well as be able to give back to our organization.

Like many great movies, not all of them have sequels, but looking back over the last three years I have realized that I'm not ready to let go of all of these FFA experiences instead I, am ready to make new ones. Now as I end my senior year of high school. I look forward to keeping you on the edge of your seat & hope I can be an inspiration as I serve the Oregon FFA Association as a part of your 2012- 2013 State FFA Officer Team.

Sincerely,

Sonja Clark

The FFA Mission

FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agriculture education
