Hello Oregon FFA!

Memories. We didn't know it, but that's what we were making. These memories are something that we carry with us for the rest of our life, yet in the moment, we were just living life with the senses that we were given. Triggers are often sent to us from past experiences that are associated with these senses. Like for me, waking up in a room full of people at only the age of 7. The sounds of people talking and cheering awoke me from my nap, as I opened my eyes and watched individuals walk across the stage to receive their State Degree. As I came to my senses, the aroma of mint hit me- and I could no longer taste the mint on my tongue. And that's when I knew- it was missing. I could feel that the gum that was once in my mouth, was now in my hair. Although it was a bad experience in the moment, it is a memory that I will stick with me for the rest of my life.

So many memories for me are triggered from the famous blue jacket, such as my first FFA State Convention, which was held at Oregon State University. The memory of the sea of blue jackets, the State Degrees being presented- flashbacks to 7 year old me were on the rise, and these are memories I'll never forget.

When creating these memories, I didn't know that I was creating a love for a program that I will cherish for the rest of my life. The love I have for agriculture runs so deep, and it's shaping me for my future. The many memories I have attached to the blue jacket will be part of me forever. From the little girl with gum in her hair, to the red headed confident young woman I am today. I want to continue to make memories in the blue jacket, I am humbled to announce my candidacy for the 2019-2020 Oregon FFA State Officer Team. I look forward to seeing you all at the 91st Oregon FFA State Convention! While you are there remember to make memories that you will carry with you for the rest of your life!

Thank you for your consideration,

Haley Jane Pfefferkorn
